

# Free People Read Freely

The public libraries of our country guarantee that information is freely available to all members of our communities.

## However, this freedom has a price.

- Our Library building needs to be maintained – this costs money.
- Our Library users need new books, DVDs and CDs - these cost money.
- Our Library users need up-to-date technology - this costs money.
- Our Library users enjoy speakers and entertainment - these cost money.

Yes, the Library is supported by our taxes but when town budgets are tight, funds for our Library's materials and services are cut.

If our Library is to continue to offer free programs for adults and children, summer programs, museum passes, and lots of new books,

## we need help from you, our friends.

Please support the Friends of Cragin Memorial Library.  
Your tax exempt contribution will help to provide the many materials and programs that benefit everyone.
